✉# barbarahagi3@icloud.com | 📞 +353 (0) 87 115 1050 | Bilingual (English and Portuguese)

I am a twenty year old girl who is always looking to learn new things and evolve as a person. My main achievements were:

- I learned to communicate in English by myself when I was 14 years old.
- Develop a social project focused on technology at age 17.
- Learning front-end skills by myself at age 20.

I'm looking to join a company where I can develop my programming skills (front end).

Able to solve problems and learn fast (self-taught).

Able to work in a team or alone with a positive attitude.

If I could describe myself in 3 words it would be: Resilient, Initiative and Proactive.

I'm always interested in hearing from former colleagues, managers, or just interesting professionals, so feel free to contact me if you'd like to connect.
